

RECOMMENDATION LIST

MOTORCYCLE 2016

CHOOSING AN ÖHLINS SHOCK IS SIMPLE... SINCE WE HAVE MADE THE CHOICE FOR YOU!

Based on the bike's performance, its price and available mounting space we have designed a shock that suits it, both when it comes to price and performance.

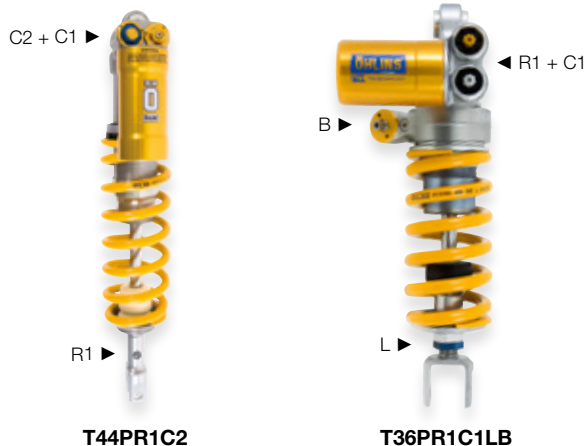

We start by choosing a shock absorber type which we tailor make for your specific bike. The basic setup, the design of the shim stacks and the calibration of the adjusters, is tested both on road and track. They are

the results of true tests with the bike and no guesswork!

Öhlins manufactures more than 300 different shock absorber models, each model is tailor made for one specific bike. The concept of all Öhlins products is not a secret, it is precision, quality and performance. Precision provides superior control of the damping force and the key to our success.

SHOCK ABSORBERS - TYPES & ADJUSTMENTS

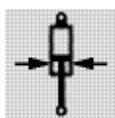

Start with finding out which shock absorber fits your bike. Then, identify which type of shock absorber it is and which adjustment features it has according to the table below.

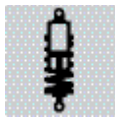

SHOCK ABSORBER TYPE

S, T
Single or twin tube design.

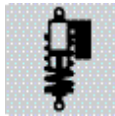

30, 36, 39, 44, 46 and 50mm
Piston diameter

E
Emulsion type of shock absorber.

D
Monotube high pressure gas type of shock absorber with internal reservoir in the main body.

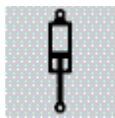

P
Monotube high pressure gas type of shock absorber with external "piggy back" reservoir.

H
Monotube high pressure gas type of shock absorber with hose mounted external reservoir.

Q1
Progressive damping shock absorber with two pistons.

W
Shock absorber delivered without spring.

ADJUSTMENT FEATURES

C1
Adjustable compression damping. Adjuster wheel or slot on the reservoir.

C2
Adjustable high- and low- speed compression damping. Hexagon or slot on the reservoir.

C4
Electronically Controlled (EC) compression damping adjuster.

R1
Adjustable rebound damping. Adjuster wheel or slot above the end eye.

R1
Adjustable rebound damping. Adjuster wheel or slot on the reservoir.

R4
Electronically Controlled (EC) rebound damping adjuster.

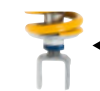

S
Hose mounted hydraulic spring preload adjuster.

S1
Electronically Controlled (EC) hydraulic spring preload adjuster.

B
Integrated hydraulic spring preload adjuster. Adjuster wheel or hexagon on the adjuster.

L
Adjustable length.

Mechanical spring preload adjuster.

TTX GP

This is the latest Öhlins shock absorber for sport and hypersport bikes. The already famous and high performing TTX shock goes to a new level with the latest valving technology from MotoGP. The TTX GP shock is now available for most bike models used in national racing as well as the latest street bikes.

- TTX technology, twin tube technology
- No risk of cavitation
- Solid piston
- Rebound and compression adjustment straight from MotoGP
- Adjustment needles with different flow restriction behavior to improve chassis feedback
- Wider and more precise adjustment range
- Adjustment possible by hand or with hexagon tool
- Completely separated functions for rebound and compression damping
- Easy to change settings, based on Öhlins setting bank

TTX RT

The TTX Road & Track is developed for the latest hypersport models as a complement to the top of the line TTX GP shock. The TTX RT has a competitive price but still offers great performance for the road and track day enthusiast. The shock is based on the TTX36 with its race proven technology.

- TTX technology
- Wide adjuster range
- Completely separated functions for rebound and compression damping
- All adjustments are done on the cylinder head of the shock absorber
- Length adjustable for most models

STX

We have them available in the cleanest design as well as fully adjustable with a lot of clickers and adjusters. It does not matter if you ride a street bike, Harley Touring bike, adventure bike or a scooter - We have a STX shock available.

- Öhlins design
- Always individually tested on every bike application
- Full maintenance capability
- Setting library available through every Öhlins service center
- A wide range of spring rates available

BLACKLINE

Öhlins shock absorbers for Harley-Davidson and Custom bikes are now available in two different designs inline and piggyback, both with the same superior Öhlins comfort and performance underneath.

- Well proven monotube design
- Designed for comfort and rideability
- Each application tested and tailor made to suit
- Wide range of spring rates are available

TTX 44

Motocross and Enduro are the ultimate tests for the R&D department and it's where it all started for us. That is why we are so serious about it. The oil flows through two Öhlins Gold valves in the compression adjusters at the top of the shock. The TTX 44 also includes the Öhlins cool tool.

- Twin tube design
- Öhlins TTX technology
- Rigid, fine precision rebound adjuster
- Three level high speed adjuster
- Highly effective low speed compression adjuster
- Race type piston and pistonband
- Available for all major MX and Enduro models
- New surface treatment piston rod
- Öhlins Cool tool
- Delivered without spring

STX 46

An updated 46 mm shock absorber from Öhlins, perfectly suited for 85cc bikes and OE applications. The 2-way compression adjuster is new and similar to the Öhlins TTX shocks for the larger bikes.

- Two way compression adjuster
- Wide range of low speed compression adjustment, 3 click high speed
- Improved dynamics, equals better function
- Upgraded PDS function

FGR 300

The improved FGR 300 is the very essence of front fork technology. Fully packed with technical solutions and experiences from MotoGP and World Superbike, improvements include a more robust design and increased adjustment possibilities.

- Pressurised TTX25 Cartridge technology
- New stronger outer tube top
- Shorter reservoir tubes
- Improved adjustment features
- Fully engaged top out spring as an option
- Different settings available from Öhlins setting bank
- Wide range of springs

FGRT 200

The Road & Track front fork with loads of performance and fantastic comfort. A winner on race tracks as well as a fantastic upgrade to improve the ride on your favourite roads. Features the Öhlins 30mm cartridge kit inside, compression and rebound adjustments easily done with compression adjustment in one leg and rebound adjustment in the other leg.

- Öhlins NIX 30mm Cartridge Kit inside
- Compression damping in one leg, rebound in the other
- Weight and stress optimized fork bottom design
- All adjustments at the top of the fork
- Reduced weight
- Proven in various racing applications
- Available for all major Hypersport models
- Different settings available from Öhlins setting bank
- Wide range of springs

FGRT 300

Performance in spades from the latest Öhlins NIX 30 technology matches the aggressive and beefy looks. Based on the Road & Track front fork, compression and rebound is easily adjustable with rebound in one leg and compression in the other. Spring preload adjustment is done from the top cap. This front fork delivers performance that improves the handling of any bike with improvements in tire feel, brake support and general handling.

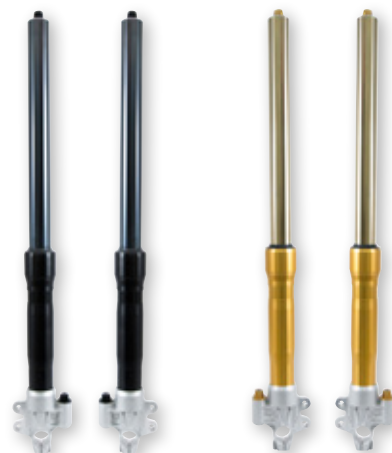

- Öhlins NIX 30 cartridge kit inside
- Compression and rebound adjustable, with rebound in one leg and compression in the other
- Spring compression adjustments in the top cap
- Weight and stress optimized fork bottom design

UNIVERSAL RWU 43

Öhlins offers a 43 mm conventional universal fork for any custom builder that wants to give the bike supreme suspension, yet classic style and at the same time get the familiar Öhlins Racing design.

- 43 mm fork
- Fully adjustable
- Black and gold design
- Setting can be changed with help from Öhlins Service Center
- Wide range of springs

UNIVERSAL USD 43

For naked bikes, Öhlins offer a range of front fork options. For custom builds, the fully adjustable fork feature the signature Öhlins separate compression and rebound damping as well as adjustable spring preload, easily tuned for your specific requirements. This fork offer complete control and race proven performance for your bike.

- 43 mm fork
- Stroke 120 mm
- Length 800 mm
- Top clamp diam. 50 mm
- Lower clamp diam. 54 mm
- Wheel axle 32 mm
- Spring rate 8,5 N/mm
- Fully adjustable
- Setting can be changed with help from Öhlins Service Centers
- Wide range of springs

RXF RACING

The very latest Öhlins Racing Front Fork loaded with the TTX22 kit inside. The front fork has been chosen so it is hard enough to resist stones but is still solid enough to prevent corrosion.

- Unique cartridge kit with TTX design
- New springs fitted
- External compression adjuster
- 48 mm DLC coated innertubes
- Available for all major MX and Enduro models

NIX 22

The Öhlins NIX22-Series cartridge kit extends Öhlins advanced suspension technology to the popular light weight sportbikes, popular street bikes and for a selection of Harley-Davidson bikes.

- Öhlins NIX Technology • External Compression & rebound adjustment
- External preload adjustment • 22 mm piston diameter • Range of springs available • Öhlins Setting Bank

NIX 30

The Öhlins Road&Track 30mm front fork cartridge kit was developed in racing series such as World Supersport and Superstock championships. Whether heading for a National Roadracing title or just taking your bike to the local race track, the cartridge kit offers loads of performance, stability and superior suppleness.

- External rebound, compression and spring preload adjusters • Easy to change settings for individual preferences, based on our Setting Bank • Wide range of spring rates available in the 08790-series • Easy to install and service • Available for all Hypersport models

FKC 100

Front end upgrade for the FLH and FLT Touring Baggers. This NIX-kit has rebound damping in one leg and compression damping in the other. This kit has been designed with a focus on vehicle control and a smooth ride.

- 25 mm pistons • Öhlins NIX technology • Aluminum damping tubes
- Optional spring rates • Improved feel, control and comfort • Easy to install

FSK 100

This fork spring kit is an upgrade for small sports and street bikes with conventional forks. The kit is designed to improve the handling, cornering and braking and give the rider a noticeable improved feeling in all areas. The replacement top cap also provides an external spring preload.

- Full maintenance capability
- Replacement top caps
- Performance rate springs
- Fits a range of sport and street bikes

FDK 100

Öhlins cartridge kit for MSX 125/Grom is a great performance upgrade for the standard bikes front end. Improved handling, cornering and braking are immediately noticed.

- Proven Öhlins damping technology
- Specifically developed for Honda MSX
- Springs included
- Compression insert
- Rebound insert
- Replacement Öhlins top caps
- Higher performance rate springs

FGR 100

Straight from Öhlins vast MotoGP-experience, the TTX25 pressurized cartridge kit is the thing to have for riders with high demands. Designed for high-end top level racing in SuperStock and SuperSport classes, this new cartridge kit will give you loads of performance.

- External rebound, compression and spring pre-load adjusters
- TTX-technology by Öhlins
- Easy to change settings for individual preferences

FKA 100

Upgrade your front end with race proven technology. Öhlins now offers a front fork cartridge kit for medium sized adventure bikes. Based on the successful road racing front fork technology, the FKA 100-series fully adjustable cartridge kit offers improved comfort and performance.

- Öhlins NIX Technology
- Fully adjustable from the top cap
- Rebound in one leg, compression in the other leg
- New hydraulic stop to prevent hard bottoming
- Easy to install and service
- Different spring rates available

TTX 22

It's the inside that really counts! If you want to keep your front fork legs but still upgrade to Öhlins TTX, just pull out the standard inserts and pop in this powerful TTX 22 cartridge kit from Öhlins R&D. The TTX technology brings a positive pressure balance in the system, thanks to the twin tube technology.

- Unique cartridge kit with TTX design
- Gas pressurized damping system
- Easy installation in OE front forks
- External compression and rebound adjusters
- Springs ordered separately

STX 22

This 85cc cartridge kit is built on the TTX 22 technology for the larger bikes. The kit is designed to rise very low above the fork leg ends allowing the fork to be mounted far up in the triple clamps. The damping characteristic has been designed to be reliable and constant in every stroke and during the race so the behavior is predictable and consistent.

- Efficient hydraulic stop for improved bottoming resistance
- Adjustable compression and rebound
- Spring pressurized system to compensate for heat changes and provide reliable damping behavior
- Available for all major models

STEERING DAMPER 2.1

It has been on the market since 1992 and was praised from the very start. The evolution of technological solutions has been added to the design throughout the years but now it is time to launch a whole new concept.

- Damping Level Adjuster • Return To Centre Adjuster • Damper body and mounting kit ordered separately

STEERING DAMPER

An essential ingredient in a complete performance package, the Öhlins telescoping steering dampers are still the ones to beat. Thanks to the superior pressurized design and extremely tight manufacturing tolerances, the damper delivers supreme performance and agility, and with the wide adjustment range it is easy to find that perfectly weighted steering feel and feedback.

- Unique design • Fluid under pressure to avoid free play • Adjustable in 16 clicks • Six lengths/strokes • Can be mounted outside the fork leg or across the frame behind the triple clamp • Kits complete with mounting brackets available for certain bike models • Universal parts for race bikes available

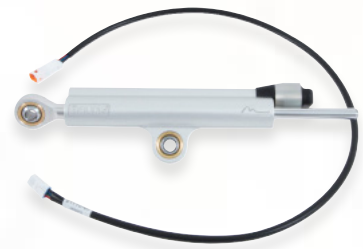

YAMAHA R1M EC STEERING DAMPER

The Öhlins Smart EC aftermarket steering damper for the Yamaha YZF-R1M, suitable for use on the road and racetrack.

The Smart EC damper plugs into the bike's existing Suspension Control Unit (SCU) to make ultra-fast changes in damping, based on parameters that include speed and acceleration. The well-proven qualities of the Öhlins steering damper are complemented by the bespoke Smart EC algorithms, which alter damping settings in real time, to suit the current riding conditions.

SUSPENSION CONTROL UNIT - SCU

No semi active suspension is better than its algorithms that control the adjusters. The Öhlins SCU reads different bike parameters, such as throttle control, speed, braking etc. If available on the bike, also movement sideways, lean angles and so on, from the bike sensor box. All signals are taken into consideration, and the best click setting for the riding situation at the moment, is adjusted.

Needless to say, the Öhlins SCU are designed to fulfill automotive standards in terms of temperature, vibrations, moisture and dirt. CAN bus communication is used whenever possible on the bike application.

KAWASAKI ZX-10R

Since 2013, the Ninja comes with a semi active steering damper ex-factory. For track day riders and high level racers that want to use the electronically controlled steering damper, we offer a race SCU. The Algorithms used in the Race SCU, give racing performance to the steering damper. Not for highway use!

The TTX36 EC shock absorber is also available to the ZX-10R, with semiactive control, totally based on riding behavior. If you ride calm, you get a lot of comfort and if you ride very fast you get the racing setting to match your riding style. The Öhlins Race Wiring harness, is intended to be used in combination with the Kawasaki Racing tuning kit.

ÖHLINS DASHBOARD

Depending on application, we can also offer the Öhlins Dashboard as MMI to control the suspension adjustment. The Öhlins Dashboard utilize a touch screen that can be controlled while riding – with gloves – to change riding modes. Individualization of click settings, driving dynamics and more features can be adjusted.

The Öhlins Dashboard is standard on the Ducati 870 kits, and can be an option to the BMW 670/671 kits.

MULTISTRADA 1200 MECHATRONICS KIT - DU 871

The complete kit to all Multistrada owners who want to update the bike from standard OEM suspension, into a full Öhlins semi active system. Consists of complete front fork, rear shock absorber, Öhlins Dashboard and the upgrade suspension control unit. Of course also with all necessary wiring, brackets, bits and pieces to make it fit the bike.

- TiN coated fork inner tubes, complete front fork
- Rear shock absorber with TTX technology and electronically
- Öhlins Semiactive suspension SCU
- Öhlins Dashboard for control
- All installation parts included

BMW R 1200 GS MECHATRONICS KIT - BM 670/671

The successful mechatronics kit to the air cooled beamer is now being offered to all GS year models. Before the bikes needed to have ESA functions from the factory.

With the introduction of the Öhlins Dashboard as an accessory to the BMW kits, it can be fitted to any BMW R 1200 GS or GS adventure between 2004-2012. And ESA is no longer important.

- TTX technology shock absorbers
 - Semiactive functions, speed dependent setting
 - With ESA on the bike, it can be operated with the ESA button
 - Without ESA, the system is operated with the Öhlins Dashboard
 - The Öhlins Dashboard offers extended features to the rider compared to ESA
 - Öhlins Dashboard available during 2014.
- See www.ohlins.com

SHOCK ABSORBER FLUIDS

Part No	Description	Viscosity cSt at 40° C	Contains	Application
00105-01	Shock absorber fluid	28,0	1 litre	For R&T shocks.
00105-04	Shock absorber fluid	28,0	4 litre	For R&T shocks.
01304-01	High demand shock fluid	11,0	1 litre	For Car & Motorcycle offroad and MX & Enduro steering dampers.
01304-04	High demand shock fluid	11,0	4 litre	For Car & Motorcycle offroad and MX & Enduro steering dampers.
01309-01	Shock absorber fluid	19,0	1 litre	For R&T shocks and R&T steering dampers.
01309-04	Shock absorber fluid	19,0	4 litre	For R&T shocks and R&T steering dampers.

FRONT FORK FLUIDS

Part No	Description	Viscosity cSt at 40° C	Contains	Application
01330-01	High performance FF fluid #5	20,04	1 litre	For MX cartridge forks.
01330-04	High performance FF fluid #5	20,04	4 litre	For MX cartridge forks.
01314-01	High performance FF fluid #10	40,0	1 litre	For cartridge forks.
01316-01	High performance FF fluid #20	98,0	1 litre	For non cartridge forks
01309-01	Front fork fluid	19,0	1 litre	For Öhlins R&T and MX forks.
01309-04	Front fork fluid	19,0	4 litre	For Öhlins R&T and MX forks.

GREASE

Part No	Description	Contains	Application
00146-01	Öhlins red grease	100 gram	Multi purpose grease
00146-02	Öhlins red grease	400 gram	Multi purpose grease
00159-01	Öhlins grease	400 gram	Multi purpose grease
00159-02	Öhlins grease	100 gram	Multi purpose grease
