

carbonin

CARBON FIBRE COMPONENTS SPECIALISTS

Price List 2017

ABOUT US

Carbonin is a first class producer of motorcycle race fairings and accessories which over the last 10 years has quickly grown to be one of the leading manufacturers for very high quality motorcycle bodywork components. Carbonin products are used worldwide and are put through rigorous testing and use by leading successful race teams in the World Superbike, the Endurance World Championship, the German IDM, the British Superbike and other national championships throughout Europe, America, and Australasia.

Carbonin manufactures parts which are mainly aimed for closed circuit track use in both carbon fibre and avio fibre composite materials. These products are supplemented by a complete fairing decal design service which allows the client to specify their own design or have a new design made for them. The end result is a product which is ready to fit straight out of the box saving the end client valuable time from having to drill, prepare and paint the supplied bodywork.

Carbonin continues to grow today as a respected supplier to both professional race teams and private final end users.

General Product and Ordering Notes

All Carbonin products are after-market accessories which are compatible replacements aimed generally only for race motorcycles unless otherwise stated. Carbonin cannot guarantee the compatibility of its products or any decal design which is not supplied pre-fitted onto a Carbonin product with other third party manufacturers products or with road versions of the models listed in this price list.

All Carbonin avio fibre and carbon fibre fairings and fairing parts are supplied as standard with Dzus fasteners pre-fitted. It is not possible to order any fairings or fairing parts without pre-fitted Dzus. The prices of each complete fairing set and of each individual fairing part are inclusive of Dzus fasteners. Standard client discounts are applicable.

When placing an order, please can you use each product code as shown and check to ensure you have included any additional information where necessary as well as ordering all of the parts which may be required to fit the product (e.g. aluminium brackets, sub-frames etc). Some products may offer a choice of options and we highly recommend reading all of the listed product details to ensure you are ordering the compatible options for your bike.

All prices are listed without sales tax. Please note that any item which is listed with a “**net price**”, **will not** be subject to any trade discount which is offered. This includes parts such as seat foam units, fitting brackets and the fairing decal design service. Please ask in advance before ordering if you require any verification.

All clients are expected to fulfil and purchase any new decal designs which are requested. If a decal design order is cancelled before the final design is confirmed or produced, the client may be subject to a cancellation charge to cover the initial design preparation work. The decal design costs as shown in the price list are only applicable to the standard sections of the fairing (upper, lower, right + left side panels and seat unit). Additional costs may be applicable for other areas of the motorcycle and can be quoted upon request.

All clients are asked to allow 3 weeks for order preparation however during the peak periods of the race season orders may take up to 6 weeks before they are ready to ship. Each order will not be shipped until full payment has been received. As of August 2017, all shipments within the European Union are sent with DPD whilst for all other non-EU destinations EMS is used. Where DPD is used, please allow on average between 3-6 working days for delivery from the day of dispatch. Where EMS is used, please allow a minimum of 8-15 working days for delivery. This delivery time may vary depending on the country. Please state in advance of any delivery deadlines you may have.

Payment

Orders can be paid either by IBAN transfer or with PayPal. If you wish to use PayPal, you will be subject to pay any applicable PayPal fees which will be added to the total of your order. This is to ensure we receive the total of the parts plus the shipping costs once PayPal has deducted their commission from the amount paid.

Karbonin d.o.o. reserves the right to change and update the prices as shown in this price list at any time and without advance notice.

Legal Note

The use of any motorcycle manufacturers brand or product names in this price list are used for identification purposes only. The company Karbonin d.o.o. is in no way associated with these companies.

FAIRING DECAL DESIGNS

DECALS & BASE COAT PRICING (applicable to all bikes where available)

	AVIO FIBRE		CARBON FIBRE		
	Year	Order Code	Price	Order Code	Price
Decal designs (net prices):					
complete fairing decal		STICK	€300.00		
decal design setup cost		DESIGN	€200.00		

Please note this is based on the standard complete Carbonin fairing decal designs for each bike. If you require a made to measure decal design to cover a larger proportion of the bike, please contact us for a quotation.

Fairing paint base coat (all net prices):

complete fairing (without fuel tank / air box cover)		PAINT25	€250.00		
complete fairing (all Honda bikes)		PAINT30	€300.00		
fuel tank / air box cover		PAINTCO	€50.00		
front mudguard		PAINTMU	€35.00		
air box inlet tubes		PAINTTU	€40.00		
use of additional colours (1 part = 1 colour)		PAINTAD	€50.00		
metallic / fluorescent colour					+ 50% of normal price

Notes:

- Please specify if you require a specific colour for the fairing base coat when submitting your order.
- Each fairing as standard is painted using one colour of base coat. Additional costs will apply for additional colours (see price above).
- The pricing for the decals is an initial guideline. Higher prices may apply depending on the complexity of each requested design.
- All decal designs are only guaranteed to fit Carbonin fairings.

SEAT FOAM UNITS

DETACHABLE SEAT FOAM UNITS

To Optimise Your Seating Position

BASIC SEAT FOAM UNIT

The BASIC seat foam units consists of an avio fibre mounting plate covered in either 10mm or 15mm neoprene. Please specify the thickness you require when ordering.

STANDARD SEAT FOAM UNIT

The STANDARD seat foam unit consists of an avio fibre mounting plate with neoprene which is covered with a high quality material giving the rider a higher level of grip which can be particularly beneficial during cornering.

Each STANDARD seat foam unit is embroidered with the Carbonin logo.

PROFESSIONAL SEAT FOAM UNIT

The PROFESSIONAL seat foam unit offers the client the highest level of customisation giving you the possibility to include the use of a team logo / bike number as well as specifying the dimensions of both the length and thickness (back support etc) to meet the requirements of the individual rider.

Please refer to each specific bike model page for price details.
